*“This is an incredible venue that not only provides the city with a unique multi-use facility, but also provides our athletes with an environment where they can hone their technical skills and dream about being one of the best in the world.”*

–Dave McQuaid,  
BC Speed Skating President

*“The Pomeroy Sport Centre in Fort St. John has world class ice quality!”*

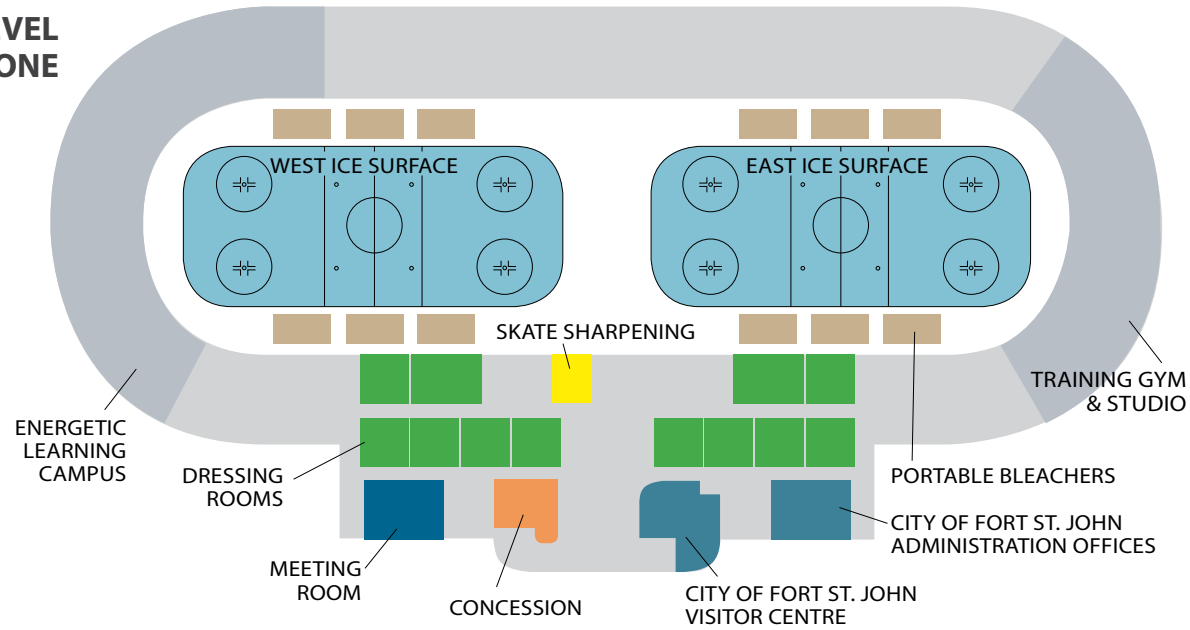

–Arno Hoogveld,  
Calgary Oval Program Coach

*“...the padding levels were certainly beyond the current ISU standards.”*

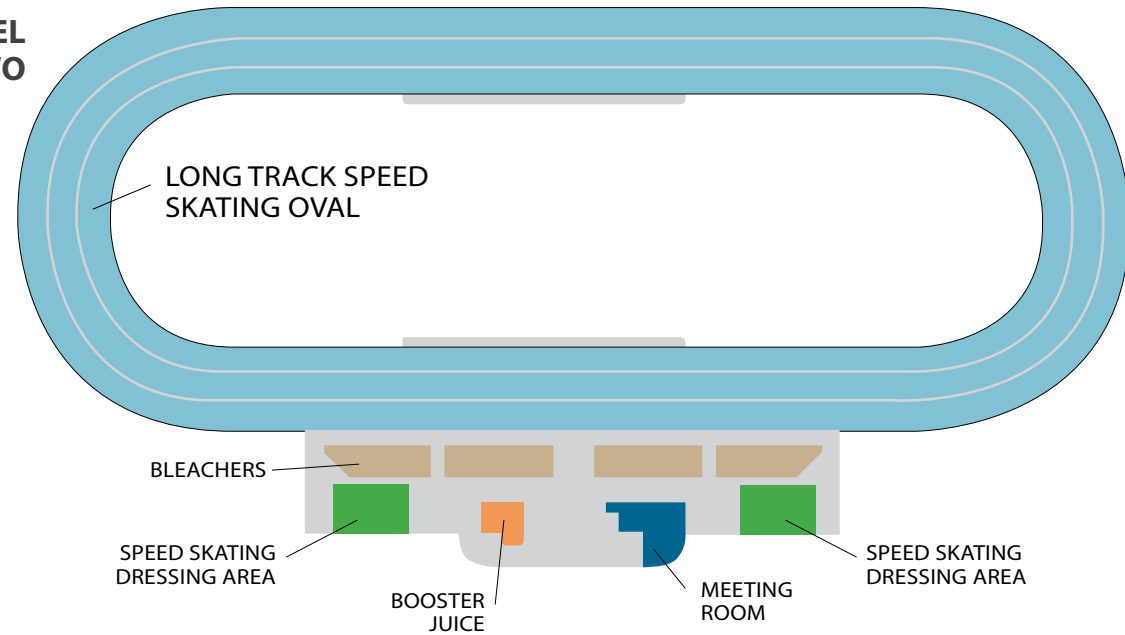

–Greg Planert,  
Speed Skating Canada

## LEVEL ONE

## LEVEL TWO

## LEVEL THREE

The third floor features the Northern Vac Track. This community walking/running track is free for public drop-in use. Exclusive bookings are available.

### Indoor Speed Skating

The city of Fort St. John has a rich history in the sport of speed skating, developing world-class Olympic skaters like Denny and Jay Morrison and Linda Johnson Blair.

The Pomeroy Sport Centre takes the development of Canada's future generation of Olympians to the next level, with a full length indoor long track oval on the second level and two ice surfaces on the main level that can be utilized for short track speed skating.

Resting at an elevation of 2275 ft, the Pomeroy Sport Centre is one of only two indoor ovals in Canada and has been sanctioned by Speed Skate Canada for national Canada Cup level events. This is an ideal facility for high performance speed skaters to hone their skills and improve their technique to compete on the world stage.

Our FinishLynx timing system is arguably the most popular (and powerful) photo-finish results technology in the world and is used at major sporting events including Olympic Trials. This Lynx digital photo finish technology and timing system offers a primary camera with enhanced-resolution, as well as a reverse angle camera which can be networked together for rapid accurate evaluation of competitors, suitable for any world class event.

Officially opening in 2010, the facility has hosted a number of nationally sanctioned Speed Skating Canada events including the 2018 Canada Cup #3. The Pomeroy Sport Centre was also the host of the 2015 Canada Winter Games long track speed skating events.

### Hockey/Ringette

Leave a lasting impression with your hockey or ringette teams by hosting your next training camp or tournament at the Pomeroy Sport Centre. The Pomeroy Sport Centre can accommodate camps and teams of all ages and skill levels.

Help your players reach their potential by utilizing the facility's meeting space to hold additional off-ice instruction, video analysis or player evaluation meetings.

### Non-Ice Sports

Collapsible boards on our ice rinks, move-able bleachers and removable ice surfaces mean we can accommodate just about any activity.

With a height clearance of close to 60 feet, our facility is ready for training camps, tryouts or tournaments.

### Trade Shows

Trade shows have access to the main floor as well as the Oval on the second level for multi-floor booth displays with enough room to house those big-ticket items, such as cars and boats. Recent upgrades provide fibre optic high capacity Wi-Fi throughout the space.

Over 140,000 sq. feet is available to host your next event!
